### Availability of a longer hitch tube for the wagon hitch kit

KA ID: KA00596124 / 283048

#### Availability of a longer hitch tube for the wagon hitch kit

##### Symptom

Wagon hitch is not long enough.

##### Resolution

The wagon hitch kit is common across several series of small square balers. The hitch tube in the kit has an overall length of 865 mm (34 inches).

A longer hitch tube (part number 84134280) is available. The longer tube has an overall length of 1185 mm (46-5/8 inches).
